CLEANING & CARE

Congratulations! Now your new space is finally complete! Your new upholstery is covered in Crypton, a stain and odor protected fabric designed for busy families like you. Crypton's exceptional protection from stains, odors, moisture, and mildew makes cleaning a breeze! Liquid spills bead up and can be blotted off with a clean, dry cloth. Most new stains come off with a clean, damp cloth and water. For more stubborn stains, a mild soap and water mixture is very effective. Please see our Cleaning & Care guide below for specific details on cleaning your new upholstery.

SPOT CLEANING

The spot cleaning method of stain removal can be used for most light to medium stains.

1. Before spot cleaning, blot up liquids on the surface with a clean, soft towel and brush off any loose dirt.
2. Prepare a cleaning solution of 1/4 tsp mild, enzyme detergent, such as Tide®, Woolite® or Dawn® dishwashing liquid, per 1 cup of lukewarm water.
3. Apply the cleaning solution using a misting spray bottle.
4. Work the solution into the affected area by lightly scrubbing the area with a sponge or soft bristle brush. Make sure to work from the outside of the stain inward so as not to spread the stain and rinse your sponge or brush frequently.
5. Allow cleaning solution to soak into the fabric.
6. Rinse thoroughly to remove all soap residues, as residues will attract dirt. Blot excess moisture with a clean, soft towel or sponge.
7. Repeat steps 3-6 as needed.
8. Allow fabric to air dry.
